Media Release

TRACKS AND TRAILS IN KINGBOROUGH

For immediate release

12 April 2017

Council has released a draft Tracks and Trails Strategic Action Plan to manage and develop existing and potential tracks and trails within the municipality.

The strategy looks at designing, signage, maintenance and how the community can be involved. Proposed tracks and trails will be prioritised following criteria developed as part of the Trails Tasmania Strategy (2007). This aims to provide a strategy for the planning, development and sustainable management of an integrated recreational trail network, working with all partners and communities.

Council invites feedback on the draft plan, which has been published on [Council's website](#). Feedback can be submitted in writing up until Wednesday 24 May either by email to kc@kingborough.tas.gov.au or post to the Civic Centre, 15 Channel Hwy, Kingston.

ENDS
