

# Kingborough Local Provisions Schedule

## How to use the Draft LPS interactive mapping tool

1 Type in your address or scroll to the property.

2 Click on the property once it appears, and an information window will show the current zone and the proposed zone. If you click on the zone, it will take you to the details of that zone. To increase the size of the information window, click on the icon at the top right corner.

- 3 You will now be able to see the current and future codes that will apply to the property. To see the provisions of a code, click on the name of the code. It will also indicate if any Specific Area Plan may apply.
